Offering a primary focus on North American cultural and ethnic diversity while addressing global questions and issues, **Counseling Across Cultures, Seventh Edition** draws on the expertise of 48 invited contributors to examine the cultural context of accurate assessment and appropriate interventions in counseling diverse clients. The book's chapters highlight work with African Americans, Asian Americans, Latinos/as, American Indians, refugees, individuals in marginalized situations, international students, those with widely varying religious beliefs, and many others. Edited by pioneers in multicultural counseling, this volume articulates the positive contributions that can be achieved when multicultural awareness is incorporated into the training of counselors.
