

Analyst for Research & Capacity Building **(Washington, DC Area)**

Do you want to use knowledge to make a difference? Do you want to work on the most important social issues of our time? Do you have a burning desire to learn more about how to make change and what changes will really make a positive difference? If so, then this might be the opportunity for you!

We are seeking a full-time Analyst to support research and technical assistance tasks for national and local initiatives across the U.S. You will work with public agencies and non-profit representatives, community leaders, evaluators, and others on federal, state, and foundation initiatives. We will rely on your knowledge, skills, and experience in community development and systems change to foster healthy communities, families, and children in order to address social problems such as poverty, inadequate systems of care, homelessness, substance abuse, violence, and crime. You must be well organized, have high standards for your work, and be committed to scientific rigor and progressive social change through community capacity building.

Qualifications:

- Four years of experience in the implementation of research or evaluation of community based or systems change projects, preferably on government contracts;
- Master's or doctoral degree in psychology, urban planning, sociology or other social science;
- Prior knowledge or research experience in at least one area of community change, e.g., housing and economic development, early childhood development, workforce development, or juvenile justice. Evaluation capacity building experience highly desirable;
- Demonstrated proficiency in both qualitative and quantitative research skills, including data collection and management;
- Analysis skills, including the use of proficient computer analysis tools (e.g. STATA, MS ACCESS or ArcGIS) ;
- Ability to travel;
- Strong communication (written and verbal) skills including publications in scientific or practitioner outlets; and
- Ability to multi-task, pay attention to detail, and meet strict deadlines
